True Food Service Equipment, Inc

Model: GDM-12F

Glass Door Merchandiser:
Swing Door Freezer

GDM-12F

- The world’s #1 manufacturer of glass door merchandisers.
- Designed using the highest quality materials and components to provide the user with an attractive point of purchase merchandiser that brilliantly displays frozen food and ice cream, resulting in high impulse sales.
- Oversized, factory balanced refrigeration system holds -10°F, ±1.5°F. Ideal for ice cream and frozen food products.
- Exterior non-foil or chip white lacquered vinyl, durable and permanent.
- Interior attractive NSF approved, white aluminum interior liner with 300 series stainless steel floor.
- Self closing door. Positive seal, torsion type closure system.
- Triple pane thermal glass door assembly with tempered plastic channel frame.
- Entire cabinet structure is foam-in-place using Ecomate. A new innovative, high density polystyrene insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Bottom mounted units feature
  - “no stop” lower shelf to maximize product visibility.
  - Easily accessible condenser coil for cleaning.

**Model:** GDM-12F  

**Glass Door Merchandiser:**  
Swing Door Freezer

**STANDARD FEATURES**

**DESIGN**
- True’s glass door freezers are designed with enduring quality that protects your long term investment.
- True’s commitment to using the highest quality materials and the highest quality refrigeration systems provides the user with colder product temperatures, and lower utility costs in an attractive merchandiser that brilliantly displays frozen food and ice cream.

**REFRIGERATION SYSTEM**
- Factory engineered, self-contained, capillary tube system using environmentally friendly (CFC, HFC, halogenated) refrigerant.
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser: maintains -10°F (-23.3°C).
- Sealed, cast iron, self-lubricating evaporator fan motor(s) and larger fan blades give True merchandisers and more efficient low velocity, high volume airflow design. This unique design ensures colder standard temperatures and faster recovery in high use situations.
- Bottom mounted condensing unit positioned for easy maintenance. “No stoop” lower shelf maximizes visibility by raising merchandised product to higher level.
- Automatic defrost system time-initiated, temperature-terminated. Saves energy consumption and provides shortest possible defrost cycle.

**CABINET CONSTRUCTION**
- Exterior - non-paint or chip white laminated vinyl, durable and permanent.
- Interior - attractive, NSF approved, white aluminum liner with 300 series stainless steel floor.

**Insulation**
- Entire cabinet structure is foam-in-place using urethane. A new, innovative, high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.
- Door sign decal: Variety of decals options available.

**DOOR**
- Triple pane thermal insulated glass door assembly with内置 plastic channel frame.
- Door fitted with 12" (305 mm) long extruded handle.
- Self closing door(s). Positive seal, torsion type closer system.
- Magnetic door gaskets of one piece construction, removable without tools for ease of cleaning.

**SHELVING**
- Three (3) adjustable, heavy duty PVC coated wire shelves 20" x 44 5/8" (519 mm x 426 mm). Four (4) chrome plated shelf clips included per shelf.
- Shelf support platters made of same material as cabinet interior; shelves are adjustable on 1/4" (13 mm) increments.

**LIGHTING**
- Safety shielded fluorescent interior lighting.
- Cabinet lighting utilizes electronic ballast and T-4 bulbs for brighter illumination, longer bulb life and increased energy efficiency.

**MODEL FEATURES**
- Evaporator is epoxy coated to eliminate the potential of corrosion.

**ELECTRICAL**
- Unit completely pre-wired at factory and ready for final connection to a 115/208V, phase 1, 15 amp dedicated outlet. Cord and plug set included.

**OPTIONAL FEATURES/ACCESSORIES**
- Upright and lead times may apply.
- Black exterior.
- Rosewood exterior.
- Stainless exterior.
- Black aluminum interior liner with black shelving.
- Stainless interior liner.
- 2 1/8" (54 mm) diameter casters.
- Novelty baskets.
- Pricing strips.
- Remote cabinets (condensing unit supplied by others; system comes standard with 40A expansion valve and requires R404A refrigerant).

**WARRANTY**
One year warranty on all parts and labor and an additional 4 year warranty on compressor.

**METRIC DIMENSIONS:**
- Model: GDM-12F
- Front: 577 mm (22 3/4 in.)
- Right: 577 mm (22 3/4 in.)
- Plan: 577 mm (22 3/4 in.)
- TD: 577 mm (22 3/4 in.)
- Back: 577 mm (22 3/4 in.)

Glass Door Merchandiser: Swing Door Freezer

STANDARD FEATURES

DESIGN
- True's glass door freezers are designed with enduring quality that protects your long term investment.
- True's commitment to using the highest quality materials and reliable refrigeration systems provides the user with colder product temperatures, and lower utility costs in an attractive merchandiser that brilliantly displays frozen food and ice cream.

REFRIGERATION SYSTEM
- Factory engineered, self-contained, capillary tube system using environmentally friendly CFC-free R-404A refrigerant.
- Extra-large evaporator coil balanced with higher horsepower compressor and large condenser; maintains -10°F (-23.3°C).
- Sealed, cast iron, self-lubricating evaporator fan motor(s) and larger fan blades give True merchandisers a more efficient low-suction, high-volume airflow design. This unique design ensures colder standard temperatures and faster recovery in high use situations.
- Bottom mounted condensing unit positioned for easy maintenance. "No stoop" lower shelf maximizes visibility by raising merchandised product to higher level.
- Automatic defrost system (pre-initiated, temperature-terminated). Saves energy consumption and provides shortest possible defrost cycle.

CABINET CONSTRUCTION
- Exterior - non-peel or chip white laminated vinyl durable and permanent.
- Interior - attractive, NSF approved, white aluminum liner with 300 series stainless steel floor.
- Insulation - entire cabinet structure is foamed-in-place using Ecosol. A new, innovative, high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with leg levelers.
- Illuminated exterior sign panel. Variety of sign options available.

DOOR
- Triple pane thermal insulated glass door assemblies with extruded aluminum frames.
- Door fitted with 12" (305 mm) long extruded handle.
- Self-closing doors. Positive seal, torsion type closure system.
- Magnetic door gaskets of one piece construction, removable without tools for ease of cleaning.

SHELVING
- Four (4) adjustable, heavy duty PVC coated wire shelves 22 7/16" (572 mm) x 21 1/4" (540 mm).
- Four (4) chrome plated shelf clips included per shelf.
- Shelf support platters made of same material as cabinet interior; shelves are adjustable on 1/2" (13 mm) increments.

LIGHTING
- Safety shielded fluorescent interior lighting. Door(s) utilize full length, patented, integrated door light (IDL) system.
- Cabinet lighting utilizes electronic ballast and T4 bulbs for brighter illumination, longer bulb life and increased energy efficiency.

MODEL FEATURES
- Evaporator is epoxy coated to eliminate the potential of corrosion.
- See our website www.truenvg.com for best color and sign options.
- Backguard and floor rack ensure optimum airflow.
- Listed under NSF-7 for the storage and/or display of packaged or bottled product.

ELECTRICAL
- Unit completely prewired at factory and ready for final connection to a 115 Volt phase, 20 amp dedicated outlet. Cord and plug set included.

115/60/1 NEMA 5-20R.

OPTIONAL FEATURES/ACCESSORIES
- Upcharge and lead times may apply.
- 230 - 240V / 50Hz.
- Black exterior.
- Rosewood exterior.
- Stainless exterior.
- Black aluminum interior liner with black shelving.
- Stainless interior liner.
- 6" (153 mm) standard legs.
- 6" (153 mm) semi-flanged legs.
- 2½" (64 mm) diameter castors.
- 4" (102 mm) diameter castors.
- Novelty baskets.
- Pricing strips.
- Remote cabinets (condensing unit supplied by others, system comes standard with 404A expansion valve and requires R-404A refrigerant).
Consult factory technical service department for BTU information. All remote units must be hard wired during installation.

Arctic Air
Commercial Glass Top Merchandisers

Shown front to back ST20G, ST25G, ST36G. Six models available in all, from 5 to 20 cubic feet. See back page for specifications.

ANSI/NSF Standard 7 certification for pre-packaged food storage. They deliver temperatures down to -18°F, making them ideal for frozen ice cream and yogurt, other frozen novelties and prepackaged frozen products.
It's not only easy to see what's inside—it's easy to see why these are such a great buy.

- White textured-steel exterior and poly-coated steel interior are bright, durable and easy to clean.
- Convenient temperature control with 7 setting adjustments.
- Environmentally friendly 134A refrigerant.
- Four easy-to-install heavy-duty casters are standard with all models.
- Tempered glass sliding doors are safe and tough. Designed for thousands of operations.
- Sliding glass doors have standard heavy-duty metal locks for situations where security is needed.
- Quiet, energy-efficient operation.
- Simple, manual defrost. Water drain port makes defrosting easy and efficient.

These quiet, economical Arctic Air bunkers are made in USA and come with a full warranty: 5 years on compressor, 1 year parts and labor. All models are tested and certified to ANSI/NSF Standard 7 for pre-packaged foods.
